

Good reasons to get around by foot, bike, bus or train

For health

Walking and cycling to work, the shops, or to visit friends and family are great ways to fit regular physical activity into your daily routine. As well as getting you from A to B, regular walking and cycling can help you burn calories, reduce cholesterol and lower blood pressure. If you take the bus, walking to the next bus stop along is a really simple way of fitting a little more activity into your daily commute.

For the environment

We all know that our environment is under threat from the things we do. Cars currently make up 13% of the UK's total carbon dioxide emissions but on average if you take a train or coach you'll contribute six to eight times less than this and, if you walk or cycle... nothing at all! Fewer cars on the road also means a safer environment for children and a more pleasant place for everyone to enjoy.

For you

One of the best things about getting around under your own steam is that it's really cheap. There's no car tax to pay, no need for an MOT and you don't have to worry about petrol prices. If you walk or

cycle regularly you'll save a fortune, so there'll be more cash to spend on fun things, like you!

Regular physical activity also helps improve your mood, is good for your sense of well-being and can help to improve your mood and boost self-esteem.

By letting someone else do the driving and taking the bus or train, you'll be able to spend more time enjoying the journey, whether you're listening to music, reading a good book or having a chat with a friend, you'll be saving money and giving your own vehicle a well-deserved rest.

Chester walking and cycling network

This map has been developed to help you travel around Chester by foot, bike and public transport. Each grid on the map overleaf represents an average 10 minutes' walk or 4 minutes' cycle ride, showing just how quick it is to get around under your own steam.

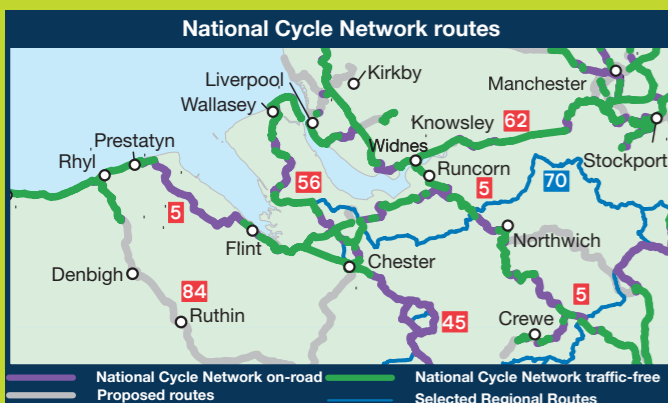

Chester is home to a wealth of amenities, leisure facilities, entertainment, retail and history within a relatively short radius of the city centre.

The Chester greenway from Mickle Trafford to Shotton, the Shropshire Union canal towpath, and the River Dee path, provide an extensive network of traffic free routes making it much easier to explore the city, the historic walled centre and the surrounding area safely and pleasantly. The routes provide a greater incentive to walk or cycle for those everyday journeys to school, college, the railway station, work and city shops.
